

# Invitation

## 5th Annual Marie Skłodowska-Curie Symposium on Cancer Research and Care

Shared knowledge, shared goals: Advancing Cancer Research Together

Date: **3-5 September, 2025**

Location: **Warsaw, Poland**

The Marie Skłodowska-Curie Symposium on Cancer Research and Care (MSCS-CRC) fosters collaboration among cancer researchers and care providers from the U.S., Canada, and Central and Eastern European Countries (CEECs). After four successful editions at Roswell Park Comprehensive Cancer Center in Buffalo (NY), this year will be held in Europe to enhance international dialogue in cancer research. This initiative focuses on accelerating new therapies, improving early detection, and raising awareness to enhance cancer care and quality of life for patients and families.

### If You are:

- A **cancer researcher** or **clinician** interested in advancing treatment options
- A **graduate** or **early-career professional** in oncology, radiology, or related fields
- A **representative** from healthcare organizations, biotech companies, or pharmaceutical firms

### On this Symposium You will:

- **Collaborate with leading experts** in cancer research and policy
- **Gain insights** into the latest trends and innovations in oncology
- **Network with professionals** from various sectors, fostering meaningful partnerships
- **Explore opportunities for international collaboration** across research, healthcare, and industry

**Submission deadline extended!**  
**JUNE 13<sup>TH</sup>, 2025**

### Key Areas of focus:

- **Enhancing Cancer Prevention:** Developing innovative public health policies and raising awareness about cancer risks and preventive strategies.
- **Advancing Research Collaboration:** Creating a collaborative projects database to support early-phase clinical trials and preclinical developments.
- **Promoting Personalized Medicine:** Leveraging advancements in AI and immunotherapy to improve treatment strategies and patient outcomes.

### Agenda overview:

#### Day 1 – September 3, 2025:

##### Public Health & AI Innovations in Oncology

- **Innovative Public Health Policies:** Developing policies to enhance cancer prevention and screening.
- **Global Health Initiatives:** Addressing disparities in cancer care across the globe.
- **AI in Oncology:** Exploring the RCMC Project and advancements in personalized medicine.

#### Day 2 – September 4, 2025:

##### Breakthroughs in Oncology

- **Advancements in Immunotherapy:** Challenges and innovations in clinical settings.
- **Precision Medicine in Action:** Translating molecular science into tangible treatments.
- **Healthcare–Biotech Collaboration:** Strategies to accelerate innovation in cancer research.

#### Day 3 – September 5, 2025:

##### Emerging Innovations in Cancer Research

- **Functional Precision Oncology:** Next-Gen Strategies for Cancer Treatment.
- **Tumor Immune Microenvironment:** Frontiers in Immuno-Oncology.
- **Academia–Biotech Collaboration:** Bridging Science, Policy, and Industry.

### Important dates:

- Abstract Submission Opens: **April 15, 2025**
- Submission Deadline: **May 30, 2025**
- Selection Announcement: **mid June 2025**
